

Learning Essentials Solution

Advise, teach, and interact in real-time with your students and other faculty – extending your teaching to a real-time learning environment

For schools trying to grow your online presence

Our Adoption Services* include:

- › **Training and project management services, including interactive workshops to refine knowledge and learn best practices.**
- › **Configuration assistance with guides to keep your skills fresh and help you teach others**
- › **Guidance from end user requirements to system readiness for real-time teaching and learning with Blackboard Web Conferencing and IM Services**

The LMS is moving – quickly – beyond its traditional acronym. Are you ready? Today's learners are expecting more from their learning platforms: more flexibility, more personalization, more content, and of course, ease of use.

Blackboard is leading this change by integrating the most proven and scalable technologies and services in Higher Education to bring you fully functional Learning Solutions. These solutions allow you to deliver a learning environment that meets the growing demands of today's, and when you're ready tomorrow's learners.

We'll help you maximize the value of your investment with included Adoption Services. We have the expertise to help you adopt technology in a way that faculty will accept – with a focus on **ease of use, holistic change management, and post deployment training and support.**

The Learning Essentials Solution provides you with these benefits:

- › Course creation, delivery, and management including course assessments, grading, and plagiarism prevention
- › Online collaboration, including web conferencing, instant messaging, wikis, journals, and blogs
- › Mobile access to courses and organizations, including assignments, grades, notifications and collaboration tools
- › Share, reuse, and find quality learning objects, making it easier to build courses in Blackboard, engage students, and achieve pedagogical goals
- › Flexible delivery options, including Software-as-a-Service (SaaS), self-hosted, or Blackboard hosted
